# INVITATION

## INTERVENTIONAL MUSCULOSKELETAL ULTRASOUND

*THEORY AND PRACTICE*

**17-18 January 2020**

University of Antwerp

Dit evenement is georganiseerd in  
samenwerking met GE Healthcare

# INTRODUCTION

This is an introduction on ultrasound guided MSK interventions for starters in interventional techniques.

The theoretical introduction on Friday covers medication, techniques and indications with special interest to avoid sequels. This part is followed with an in depth discussion in a topographic organized way and instructed by an international faculty, members of the Intervention subcommittee of the ESSR.

The US guided manipulation is trained on (fresh or fresh frozen) human corpses. The number of participants to the practical session on Saturday is restricted to 40 to promote interaction and hands on training in small groups.

Belgian (European) radiology CME credits are requested in rubric 3, total of 10 CP. ESSR MSK diploma accreditation is requested. A high quality color syllabus with table of contents will be available.

## FACULTY

<b>Gina Allen</b>	Oxford, UK
<b>Pilar Aparisi</b>	Auckland, New Zealand
<b>Alberto Bazzochi</b>	Bologna, Italy
<b>Jose Luis del Cura</b>	Bilbao, Spain
