

to be released in 2021

The Belgian Museum of Radiology  
presents the movie:

## 50 years of CT

First clinical image—1er october 1971

Devised in 1972 by Godfrey Hounsfield, the first EMI CT-Scanner in Belgium (the sixth in the world) was installed in July 1974 in Michel Collard's radiological department in Montigny-le-Tilleul.

**This device is now displayed in the Belgian Museum of Radiology in Brussels.**
